## **Regional Medical Imaging Grows Medical Team** *Seven New Clinicians Bring Additional Subspecialty Expertise*

**FLINT, MI (January 22, 2010)**—Seven healthcare providers recently joined the clinical staff of Regional Medical Imaging (RMI), a leading Mid Michigan radiology practice. These clinicians will further expand RMI's expertise in radiology subspecialties and enable the practice to provide a more comprehensive set of diagnostic and image-guided treatment services.

### **Larry McNamee, M.D., Medical Director for PET/CT**

Dr. McNamee will apply his expertise in oncologic PET, MRI, and CT interpretations in his new role as Medical Director of RMI's PET/CT program.

A graduate of the St. Louis University School of Medicine, Dr. McNamee completed a residency in diagnostic radiology and nuclear medicine at the Cleveland Clinic Foundation and is also trained in hematology and oncology. He was board certified in diagnostic radiology and nuclear medicine in 1975 and in nuclear cardiology in 1996.

His clinical experience includes leadership roles as Chairman of the Department of Radiology for Presbyterian Intercommunity Hospital and Managing Partner with the Whittier Radiology Medical Group.

**Alex Boutselis, M.D.**

Dr. Boutselis specializes in oncologic diagnostic radiology. His background includes positions with large acute care hospitals, and he was Co-Founder and General Director of InnerVision Advanced Medical Imaging Center in Lafayette, Indiana. He was board certified in 1997.

**John P. Dobson, M.D.**

Accredited in mammography by the American College of Radiology, Dr. Dobson has practiced in all diagnostic modalities, including CT, MRI, ultrasound, fluoroscopy, and nuclear medicine. His interventional background includes angiography; CT-guided biopsy and drainages; and permacath, PICC line, PasPort, and MedPort placements. He was board certified in 1993.

**John Frederick, D.O.**

Dr. Frederick's experience spans a range of diagnostic and interventional modalities, including CT, ultrasound, MRI, nuclear medicine, thyroid therapy, mammography, and angiography. Board certified in 1988, he remains active in radiology education.

**Nanci M. Mercer, M.D.**

Dr. Mercer is a distinguished specialist in women's imaging, breast imaging and intervention, and Breast MRI. She was most recently Director of Breast Imaging at Quincy Medical Center, with Boston University Radiology Associates, where she developed a comprehensive Breast MRI and Breast Interventional service. She was board certified in 2002.

**John S. Morrison, D.O.**

With a 2003 board certification and a 2005 Certificate of Added Qualification in Neuroradiology, Dr. Morrison has held several staff radiologist and leadership roles. His neuroradiology expertise includes interventional pain management and interpretation of MRI, CT, nuclear, radiography, ultrasound, fluoroscopy, angiography, and vascular Doppler studies.

**Steven L. Galliway, M.S., PA-C**

Mr. Galliway is trained in interventional radiology and emergency medicine. His interventional qualifications include Medport/Pasport insertions and removals, dialysis catheter insertions & removals, PICC line access, paracentesis, thoracentesis, and CT and ultrasound guided biopsies and drainages. He was board certified in 2000.

Randy Hicks, M.D., President of RMI, commented, “We welcome our new colleagues, their patients and referring community to RMI. I am proud of the fact that we continue to raise the bar in terms of delivering quality healthcare to our area. In addition to deepening our expertise in several subspecialties, this new group of providers will also enable RMI to further expand our services to patients in Mid-Michigan.”

***About RMI***

*RMI began in 1985 as a private, outpatient-based imaging facility with a goal of offering patients an alternative to hospitals for radiology services. Today RMI continues its commitment of providing state-of-the-art equipment in a patient-friendly atmosphere at its offices in Flint, Fenton, Grand Blanc and Davison.
