

FOR IMMEDIATE RELEASE

## RMI welcomes Dr. Gina Fundaro to Breast Imaging Team

**Novi, MICH. (Jan. 4, 2021)** – Regional Medical Imaging (RMI) is pleased to welcome Dr. Gina Fundaro to the company’s team of dedicated radiologists. Dr. Fundaro will be based at the company’s Novi location and specializes in breast imaging and breast interventional procedures.

A lifelong native of Michigan, she served since 2008 as senior staff radiologist at Henry Ford Hospital and also as site director of the Henry Ford Fairlane Breast Center. Prior to this, she worked at the Alexander Walt Comprehensive Breast Center of the Karmanos Cancer Institute from 2005 to 2007.

Her passion for women’s healthcare arose while in college following her grandmother’s death from preventable breast cancer. It highlighted the need to catch breast tumors early, spurring her to enter radiology and help women fight the disease.

“We’re pleased a physician of Dr. Fundaro’s record is joining our team,” said Dr. Randy Hicks, CEO of RMI. “She will continue our efforts to provide excellence in women’s medical imaging in Southeast Michigan.”

Dr. Fundaro also serves as breast ultrasound accreditation program reviewer with the American College of Radiology and as a clinical assistant professor at the Wayne State University School of Medicine.

Dr. Fundaro will join RMI’s team of 13 radiologists, including four who are sub-specialized in women’s imaging.
